

Dear NOAH Conference Attendees,

Firstly, a sincere thank-you from the board and myself for your presence at our inaugural conference. Your support and engagement helped make this event a success!

Secondly, we are already at work to make next year's conference even better. Your feedback is valuable to us as we work through the evaluation stage, and we've developed a short survey that will help us learn from you.

This 8-question survey will only take a few minutes of your time, and serve as an important resource for us. Please follow [this link](#) to take the survey.

Finally, please keep an eye on your inboxes, as the following information will soon be provided:

- A contact list for the conference
- Ways to stay connected
- Conference reports
- Links to the majority of NOAH conference presentation slides

Thank you again for your time and commitment to the field of Arts in Health. We look forward to staying in touch with all of you!

Sincerely,
Katie White Swanson
